4. Outlook

The effect of this real estate advisory agreement on the consolidated results of operations for the current fiscal year ending February 2010 is expected to be minimal. However, as demand for the provision of Corporate Real Estate (CRE) solutions continues to rise, we believe that the business tie-up agreement with Toyoda D&C will generate a significant number of additional real estate advisory agreements, with the overall effect of strengthening the earnings base of the Asset Managers Group.
